Memorandum for: RECORD

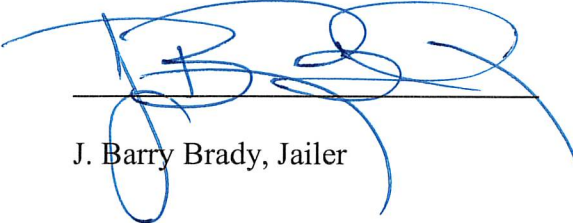

March 27, 2026

Subject: PREA Annual Report 2025

The Marion County Detention Center has investigated 20 PREA incidents in the calendar year of 2024. Eight of which were unfounded PREA hotline calls. There were 12 reported PREA incidents, including seven inmate-on-inmate and two staff-on-inmate incidents. Three were substantiated, one was unfounded, nine were unsubstantiated, and none was consensual.

Our reporting mechanism remains unchanged, and all inmates are provided upon intake with PREA information. We continue to make our policies relating to PREA readily available and knowledgeable through inmate information, PREA posters, and staff training.

The agency maintains and improves education efforts in line with the agency's goal of zero tolerance. Staff training goals are to exceed recommended levels of training to combat sexual abuse and harassment. The agency continues to seek community partners and facility mental health provider for counseling and treatment purposes.
